SQL Statement:

```
SELECT food_order.order_id, customer.name, food_order.order_date, food_order.food_item
FROM food_order
INNER JOIN customer ON food_order.user_id=customer.user_id
WHERE order_date BETWEEN '1990-01-01' AND '2001-01-01'
;
```

Edit the SQL Statement, and click "Run SQL" to see the result.

Run SQL »

Result:

Number of Records: 1

order_id	name	order_date	food_item
5642	abc3	2000-07-06	qwerty
